

Don't let the UN Close The Door On Us!

We are the Elevator Operators employed by American Building Services (ABM) to service the UN and its hundreds of Employees and visitors. Many of us have worked here for 2 decades. A few weeks ago, we learned that the UN cancelled ABM and awarded the contract to operate the elevators to A-1 Offices Services Managment.

We have asked A-1 to allow us to apply to for our jobs and to hire us. We have a lot of experience in this building, serving the UN for so many years. To date, A-1 has not responded to our requests for applications.

Our livelihood and our families are in jeopardy!

Call Jerry Lowcoror the UN's Facilities Manager at (212) 963-1740 and tell him that A-1 Office Services Management should not close the door on us. We want to continue working at the United Nations earning decent wages and benefits.

**Local 32BJ has a dispute with A-1 Office Services Management and no other employer
This is not a request for any employee to cease performing services or delivering goods.
