(from my AFP UN Colleague (b) (6) ) AFP contact is:

regional director (b) (6). He is away in Paris this week at regional meetings. I will send him a mail this afternoon and if you tell her to wait until tomorrow morning so he can digest that, she can contact him at his email address is (b) (6).  
I think Reuters is up for sending a letter too.

Margaret,

That's fine. Can you put me in touch with the right person at AFP?

Kataryna

Kataryna,

My AFP colleague asks if they could possibly get the tenor of our letter so they can stay on message and ask in the same way. Their legal dept is in France, so it would be their regional director in Washington contacting UN on their behalf.

Thanks
