Dear Giampaolo,

We would like to request that you urgently propose a committee to look into the long list of complaints we've received about Matthew Lee's harassment of colleagues at the United Nations over the years, and his generally unprofessional and unethical behavior. We feel it's time to consider whether he truly belongs in an organization of journalists committed to professionalism, ethics and covering the United Nations. We have repeatedly warned him to stop this behavior, but he persists in it. He has repeatedly lied to the UNCA Executive Committee and broken his promise not to report on confidential committee discussions about his behavior. This can't go on.

Best regards,

Flavia Krause-Jackson Margaret Besheer Talal Al-Haj Louis Charbonneau Timothy Wither
